Building the Bridge between

PEOPLE PAPER & PROCESSES

Are you ready to take your office paperless?

SmartSearch is the proven answer if you want to:

- Eliminate paper-based filing systems
- Streamline business processes
- Automate document routing and notifications
- Increase document security and compliance
- Easily share and collaborate on documentation within your organization

SmartSearch offers affordable, award-winning document management that can be adapted to any paper-intensive business. No matter what size your company, or in what field you work, SmartSearch offers value-driven solutions that are easy to use, learn and support.

People:

All documents are securely deposited in Archives you designate. You dictate permissions guaranteeing compliance while ensuring that documents are available 24/7. With SmartSearch you determine who in your organization will have access to your files and what can be done with them.

Paper:

Reduce paper consumption by storing all of your documents in a centralized content repository. SmartSearch's broad adaptability allows you store both scanned and electronic documents including PDF, JPG, TIF Word, Excel, Outlook files and many more.

Processes:

SmartSearch drives efficiency by streamlining repetitive business processes including document routing, notification and approval. Time spent searching for documents is drastically minimized resulting in increased productivity and reduced spending.

With SmartSearch, the paperless office can finally become a reality. Contact us today for more information on the solutions you need to evolve your organization's document strategy.
